BULGARIAN SUCCESSES IN ELECTRIFICATION IN 1951

During a conference of a committee of employees of the Ministry for Elec-
trification, held in Sofia recently, the results of the plan for the electrifi-
cation of the country in 1951 and the prospects for 1952 were discussed.

Milko Tarabanov, Deputy Minister of Electrification, mentioned in his
speech the great success in the field of electrification. In comparison with
1950, the production of the electrical industry increased 21 percent in 1951.
Some 200 new types of products were produced, including high-powered electric
motors, electrical measuring instruments, dynamo machinery, etc. Generation
of power increased 28 percent in Bulgaria in comparison with 1950.

New great tasks face the Ministry for Electrification in 1952. The volume
of industrial production in factories is to be increased by more than 40 percent
as compared to 1951. The plan envisages the putting into operation of newer,
more powerful steam and hydroelectric power plants, as well as the electrifica-
tion of a number of additional economically important areas of the country.
